

30 Day Home Cyber Improvement Plan

A calm monthly plan that spreads work into small sessions.

Audience	Families that need progress without pressure.
Purpose	Make cybersecurity feel manageable through weekly goals.
Best use	Use one or two actions per day. Do not try to finish everything at once.

Week 1. Protect accounts

☐	Secure email with a strong password and multifactor authentication.
☐	Change three reused passwords.
☐	Save recovery codes in a safe place.
☐	Add bank and card alerts.

Week 2. Update and clean devices

☐	Turn on automatic updates.
☐	Update browsers and apps.
☐	Remove unused apps.
☐	Run built in security scans.

Week 3. Improve Wi Fi and smart devices

☐	Change router admin password.
--------------------------	-------------------------------

☐	Check Wi Fi security settings.
☐	Create guest Wi Fi if possible.
☐	Remove unknown devices.

Week 4. Prepare for problems

☐	Back up important files.
☐	Write trusted support numbers.
☐	Practice the stop verify report rule.
☐	Review one case study and one toolkit guide together.

Keep this guide near the device or account it protects. Small habits make a real difference when they are repeated.
