

# Safe Device Handoff and Disposal

By: Joseph Gonzalez

|          |                                                                      |
|----------|----------------------------------------------------------------------|
| Best For | Selling, donating, recycling, or giving a device to someone else     |
| Use      | Follow before a phone, tablet, laptop, or drive leaves your control. |
| Inside   | Backups, sign out, reset, storage removal, and safe disposal steps.  |

*For educational use. Share with family members, caregivers, teachers, and community groups. The goal is calm action, not fear.*

# Safe Device Handoff and Disposal

Use this guide as a calm checklist. Read one section, take one action, and come back later for the next step.

## Before the device leaves

A device can hold photos, messages, saved passwords, location history, and banking access. Clear it carefully before handing it to anyone.

## Checklist

- Back up photos and files you want to keep.
- Sign out of email, cloud, app stores, and banking apps.
- Remove SIM cards and memory cards.
- Turn off tracking locks only when you are ready to erase.
- Factory reset using the official settings menu.
- For computers, use the official erase or reset option.
- Recycle devices through a trusted program if they are not being reused.

## Español

Un dispositivo puede guardar fotos, mensajes, contraseñas, ubicación y acceso al banco. Límpialo con cuidado antes de entregarlo.

- Haz copia de seguridad de fotos y archivos.
- Cierra sesión en correo, nube, tiendas y apps de banco.
- Retira tarjetas SIM y memoria.
- Desactiva bloqueos de rastreo solo cuando estés listo para borrar.
- Restablece el equipo desde el menú oficial.
- Recicla con un programa confiable si no se va a reutilizar.

---

Reminder: Stop, Check, Ask. If something feels urgent, strange, or scary, slow down and verify with a trusted source.
