

Stop, Check, Ask Playbook

By: Joseph Gonzalez

Best For	Scam texts, suspicious emails, strange calls, and urgent messages
Use	Read this before clicking or replying to anything that feels wrong.
Inside	A simple decision method for phishing, smishing, and scam calls.

For educational use. Share with family members, caregivers, teachers, and community groups. The goal is calm action, not fear.

Stop, Check, Ask Playbook

Use this guide as a calm checklist. Read one section, take one action, and come back later for the next step.

The rule

When a message creates pressure, slow down. Scammers want fast reactions. A pause is protection.

Stop

- Do not click links.
- Do not open attachments.
- Do not send money or gift cards.
- Do not share passwords or login codes.
- Take a screenshot if you can.

Check

- Look at the sender carefully.
- Do not trust the phone number inside the message.
- Use the official website or app.
- Call a number you already know is real.
- Ask whether the message is trying to scare you.

Ask

- Ask a trusted person before acting.
- For bank issues, call the number on your card.
- For school issues, contact the school directly.
- For family emergencies, call the family member using a saved number.

Español

Cuando un mensaje mete presión, baja la velocidad. Los estafadores quieren reacciones rápidas. Una pausa te protege.

- No hagas clic en enlaces.
 - No abras archivos inesperados.
 - No envíes dinero o tarjetas de regalo.
 - No compartas contraseñas o códigos.
 - Pregunta a una persona de confianza antes de actuar.
-

Reminder: Stop, Check, Ask. If something feels urgent, strange, or scary, slow down and verify with a trusted source.
